Digital Multifunctional System

The smart way to get more done

smart business partner

High Productivity

The MFP delivers a fast output of 90 ppm^{*1}. And if toner runs out during a print job, the MFP continues printing your documents while you change the toner cartridge. Your productivity won't miss a beat.

All the Needed Finishing Options

Finishing options are available for all your common needs—there's an inserter, a folding unit, two types of saddle stitch finisher, and a trimming module. These let you easily create professional-looking direct mail, handouts, booklets, brochures, and more.

Unified Cloud Connection^{*2}

You only need to sign in once to connect to multiple cloud services, such as Microsoft Teams, from the MFP. Applications can also be easily downloaded from the cloud. Updates are clearly displayed, so you're always using the latest version of services.

Solid Security

The MFP has multiple levels of security to keep the device—and your precious data—secure. When booting up, the MFP checks for any anomalies in the BIOS firmware. If it finds a problem, it aborts the startup. If there are other firmware-related issues, the MFP will attempt recovery to protect the system. You can also install optional software to prevent attacks on devices connected to the MFP.

Link Mobile Devices

Mobile devices installed with the Sharpsdesk Mobile application^{*3} can connect directly to the MFP for printing or downloading scanned data. The MFP can also be equipped with AirPrint and the Sharp Print Service Plugin. It's a smoother way to get the job done.

10.1-Inch Full-Flat Touchscreen

With a variety of functions accessible via simple, intuitive icons, MFP operation is smooth and easy.

On-Screen System Information

The control panel shows the state of your MFP, displaying current operation and notifications for things like paper, toner, and maintenance.

High-Performance DSPF

The DSPF (duplex single pass feeder) scans both pages of two-sided documents in one pass—in batches of up to 300 sheets. With scanning speeds of up to 280 opm^{*4} (two-sided), the MFP is quick to finish even large jobs. A dedicated business card feeder on the DSPF scans batches of up to 150 cards.

Smart Scanning

Simply tap the Auto Set button and the MFP will automatically determine the optimal resolution, gradation, and compression rate for your scan jobs. It also automatically reorients pages right side up and corrects any skewed sheets.

Eco-Friendly Design

Despite its many functions, this MFP achieves superb energy efficiency. For example, the use of low-temperature-fusing toner results in vastly reduced energy consumption for the MFP.

Remote Firmware Updates

The MFP's firmware can be remotely updated—without the need for service operation—via a firmware update service. That way you're always using the latest system for your MFP.

PROFESSIONAL-QUALITY IN-LINE FINISHING OPTIONS

A range of finishing options work to automate time-consuming finishing tasks. Options are available to suit a variety of workplaces and applications.

^{*1}: Long-edge feeding.
^{*2}: Only short-edge feeding can be used with A6 and 5 1/2" x 8 1/2" paper. A6-size paper output requires optional MX-TR21.
^{*3}: In a standard measurement environment. May vary depending on operating conditions and environment.
^{*4}: When starting the MFP via the power button. 48 seconds when starting via the main power switch.
^{*5}: Storage capacity depends on procurement and sourcing status.
^{*6}: Replacing the standard-equipped SSD with the optional BP-SD10 increases storage capacity to 512 GB.
^{*7}: Including protuberances.
^{*8}: Long-edge feeding of A4 (8 1/2" x 11") sheets from 1st paper tray, using document glass, MFP in fully ready condition. May vary depending on operating conditions and environment.
^{*9}: Not available when using document glass.
^{*10}: Based on Sharp's standard chart with approx. 700 characters (A4 or 8 1/2" x 11" long-edge feeding) at standard resolution in Super G3 mode, 33,600 bps, JBIG compression.
^{*11}: Resolution will vary depending on the size of the scanned area.
^{*12}: Colour/greyscale only.
^{*13}: Requires Network Scanner Tool Lite.
^{*14}: Storage capacity will vary depending on the type of document and the scan settings.
^{*15}: Some features require optional equipment.
^{*16}: In some countries/regions, the optional BP-EB10 is required. Availability of this option varies by country/region.
^{*17}: Based on Sharp's standard chart with approx. 700 characters (A4 or 8 1/2" x 11" long-edge feeding) at standard resolution in Super G3 mode, 33,600 bps, JBIG compression.
